CANDLER COUNTY MOTOR GRADER RFP

ADDENDA #3

The following questions were submitted by a bidder and the owner's responses are listed below. This addendum shall be made a part of the Request for Proposals by reference. Bidders are solely responsible for all information included in this addendum.

QUESTIONS:

Item 40, Page 40 Keyless Entry With Keypad On Drivers Door: Does this item mean the Ford OEM standard panel (that controls door locking, windows and mirror) on the inside of the door or a combination lock pad on the exterior of the door?

Response: *the spec means the exterior keypad*

Item 95, Page 11 Change to read. Bidder shall provide and install Stryker Performance Load with charger plate and Stryker Power Pro XT Cot.

Response: *this question was answered in Addenda #2*

Item 90, Page 11 Bid Spec call for Siren: 2 EA Whelen WS-295HFRS W/NCM Located in Front Switch Console. The bid calls for two sirens but only one (1) set of dual Cast Speakers. Bid should state that another set of dual 100 watt speakers shall be provided and installed behind the OEM Grille. This is usually the normal set up on Cab Chassis Type I units.

Response: *1 single siren with dual siren ability with two (2) speakers behind the front grille.*

Item 88 & Item 89, Page 11: Under Load Lights the specifications call for LED Two (2) Whelen M9 (2) each side with Chrome flanges over rear doors. Is this 2 or 4 lights? Under Scene Lights it does not specify LED's. Is this correct or did you want them to be LED also?

Response: *Two (2) on each side over the left rear and right rear for a total of four (4) LED lights*

Item 6, Page 13, Heavy Gauge Black Rubber Fenderettes. We can supply Stainless Steel Fenderettes standard at no additional cost. Why don't you add Stainless Steel as an alternative option?

Response: *Stainless is preferred if available at no additional cost*
